SMU SINGAPORE MANAGEMENT UNIVERSITY | **Libraries**

Manager, Digital Innovation

Applications are invited for the appointment of Manager, Digital Innovation at the SMU Libraries, Singapore Management University (SMU).

We are seeking for an enthusiastic, innovative, and experienced information professional with strong analytical skills, agile and flexible approach to working with technology and ability to adapt to an evolving environment to administer and manage library systems, technology-enhanced learning spaces, library services platform, discovery services and other related library technology services to join our team.

You will work collaboratively with the entire Library team and other stakeholders to proactively identify and creatively implement and manage new & existing technologies that support learning, teaching and research activities at SMU.

Requirements
- Bachelor's degree in computer science or equivalent and at least 2-3 years' experience in managing and troubleshooting library systems and applications.
- Excellent project management competencies, with strong analytical and problem-solving skills.
- Good communication and inter-personal skills, including ability to liaise with colleagues and vendors.
- Ability to work independently and collaboratively with a diverse population of staff, faculty, and students.
